COMMUNICATED,

1. That the intercession of the landing process to 1879, whereby the State has been compelled to pay 6 per cent instead of 3 per cent upon her obligations.

2. The residents have, by creating the funding process of 1879, sunk \$1,500,000, which the people have been compelled to pay for their body and stipendiary in the last two years.

3. The residents said to the bondholders, we will pay you 3 per cent, and the bondholders replied, you shall pay us 6 per cent, and we have been compelled to do so for two years.

4. The residents tried to get the negroes to vote with them, and when they could not persuade or buy them, they bundled up and went over to the negroes, horse, foot and dragoons.

5. The residents for a time, man's obligations to pay a just debt, are only commensurate with his own estimate of his ability to pay, hence every man can discharge his own debts to his own hand.

6. The residents profess to be great friends of the public schools, and are striving to deprive them of several hundred thousand dollars by repealing the capitation tax.

6. The residents offer a premium for regularity by promising to abolish the Heavy apportionment for lateness—the lash—if the negroes will vote for them.

7. The residents claim to have had control of the State government for two years, and have done nothing for the relief of the people; have ridge d no tax; have done nothing for the schools; have passed no law to help their bodies but themselves.

In Grace Church, by the Rev. Henry T. Sharp, Oct. 18, 1881, Mr. ROBERT BURNS Scott, and Miss ANNIE CLEMSON CRUMP, both of this city.

DIED.

The much dreaded disease, Diphtheria, has made its appearance in the house of J. W. and Hattie Campbell, residing near Buckland, Prince William county, Va., and has taken for its victim three dear little children. John Morrison died Aug. 12, aged nine years and a few days, and before the rest could have ceased to fly, and the broken hearts could have begun to heal, little Cora, aged six years and a few weeks only, died Sept. 5, and another wark had elapsed, on Sept. 11, ORA, two sister to Cora, died. Thus is one short month the sad parents were called upon to give up three of their loved ones. It is seldom we are called upon to record a more heart-rending ill-fate than this; but God, who is too wise to err, hath done this, and we must not murmur at His will. The Lord hath given and he hath taken away; blessed be the name of the Lord. Weep not, dear mother, God has only transplanted your loved ones; he had left his marks upon the innocent hearts, to a world where there is no pain or sorrow, but where "the wicked cease from troubling and the weary are at rest." May God bless and sustain the greatly afflicted family, and help them to live that when this life is over they may be an unbroke family around the Throne of God.

LOCAL MATTERS

The Weather Probabilities, Oct. 19, 1881—For the Middle Atlantic States, cloudy, fair weather, northerly winds, becoming variable and slightly or higher barometer.

SPONTANEOUS COMBUSTION.—A rare and curious case of spontaneous combustion, nearly resulting in a disastrous fire, occurred last night in the drug store of Messrs. S. S. Leibnitzer & Bro., on Fairfax street. During the day Mr. Leibnitzer had compounded a quantity of powder to be used at night in producing the beautiful blue and red lights exhibited at the fire works in honor of Major Daniel, and a portion remaining over was bottled and put upon the counter, a marble slab. About one o'clock this morning as two of the policemen were walking their beat, and when near the corner of King and Fairfax streets, they were attracted by a brilliant light proceeding from the drug store. They immediately repaired thither, and being unable to open the door broke a pane of glass and got through, when they discovered that the powder had ignited and burst the bottle, scattering the glass and causing the brilliant illumination. By means of getting hold of only a small quantity of water the damage was stopped before any great damage was done, though the escape from a serious conflagration was almost miraculous. The fire department was called out, but did not go into service, it being unnecessary.

LOCAL BREVIETIES.

The attendance at the Richmond fair is very small.

Miss Maria Baldwin, of Louisville, Ky., is the guest of Miss Galt Norton.

Norfolk is gay with decorations in honor of the Yorktown centennial.

So Mahone is an aristocrat! Let us have now a sketch of his ancestors.

Marriages are plentiful, but we fail to hear any gross from overladen tables. The tables seem to be turned.

Thanksgiving cards are among the latest fashions. They can be used for invitations to dinner.

Rev. Dr. Sprig, formerly of this city, but now of Richmond, Va., was here to-day. Many friends were glad to see him.

A marriage license was issued in Washington yesterday to Wm. H. Daley, of Baltimore, and Ross Bentley, of Leesburg, Va.

Why not let the farmers take away the dust heaps on the streets free of charge? They would gladly do the hauling if allowed the use of these accumulations.

The beautiful shield of natural flowers presented to Major Daniel at the close of his speech last night at Armory Hall was the gift of the Misses Graham, of Arlington township, Alexandria county.

John Ward, the colored boy arrested in Washington, and held for trial for stealing \$70 from Mr. Smallwood, county court, and brought to this city and lodged in jail, was taken to Rockville, by Constable C. O. Sipple, to-day.

George Charles T. Ferrall, who was the guest of Judge Charles R. Stuart during his stay in this city, left this morning to speak at Hanover Court House. Judge O'Farrell's eloquent speech last night will long be remembered here.

Miss Davison has lately taken charge of the Alexandria Infirmary. This institution, long a blessing to the community, deserves, as it needs, more general interest and larger contributions from our own citizens. Heretofore its main support has come from the purse of rich people away from home. From this time it will be the aim of the managers to get the small amount of money required to keep up the Infirmary from those who live in Alexandria. The work is one that must appeal to every serious person; it is a Christian home for the sick, irrespective of their religious belief; it is managed with that measure of economy consistent with the character of the patient; the good work goes on smoothly and quietly, and we trust nothing will ever occur to hinder its progress.
